From *Kindergarten Teacher To Falsely Accused To Attorney At Law*

Founder and Attorney Tonya Craft has been in your shoes. After a false accusation of sexual abuse ended her 20-year career as a kindergarten teacher, Tonya had to advocate for herself by assembling a team of attorneys and expert witnesses to pursue justice in her case. After three years of fighting for the truth, she was acquitted of all charges.

This experience gave Tonya a new perspective on the legal system and inspired her to help others pursue truth and justice in their own legal battles. **After completing law school and being sworn in as an attorney, she assembled the expert team at Tonya Craft Legal with a mission to practice law differently.**
